

A black and white photograph of a woman with short, curly hair and glasses, looking down at a laptop screen. She is wearing a light-colored, short-sleeved top. The background is blurred, showing an office environment. In the top right corner, there is a blue rounded rectangle containing the 'GENTAX' logo in white. In the bottom left, there is a dark blue rounded rectangle containing the text 'FAST ENTERPRISES TAX ADMINISTRATION SOFTWARE' in white.

MODERNIZING TAX SINCE 1998

From New Zealand to New York City, from California to Kansas City, revenue agencies of all sizes rely on GenTax's flexibility and built-in API integration to overcome challenges, reduce fraud, and fund essential government programs.

Since 1998, GenTax has been essential in helping clients to:

- ▶ Accurately process returns and consolidate taxpayer accounts
- ▶ Operate with the most modern technology available
- ▶ Administer hundreds of taxes and fees
- ▶ Distribute revenue and emergency relief funds
- ▶ Provide customer-centric e-Services
- ▶ Cut costs and mitigate risks

THE PATH TO SYSTEM INTEGRATION

When the Pennsylvania Department of Revenue (DOR) sought to replace its various systems with a single integrated tax system in 2018, agency leaders wanted more than a vendor: **They wanted a partner with proven experience.** DOR found that partner in FAST—and the result is a simplified tax experience for residents of the nation's fifth most populous state.

"We are very pleased with the results of our GenTax implementation," said Allison Morgan, Pennsylvania Tax Hub Project Director. "It has helped our Department greatly improve customer service for taxpayers, which is the No. 1 goal in our strategic plan. Our employees have a new, user-friendly system that makes their lives easier."

Life is also easier for taxpayers. Since launching My PA Tax Hub

(myPATH) in January 2019, DOR has implemented 156 new self-service opportunities to the new portal, which includes:

- ▶ 24/7 access to multilingual services and accounts from any device
- ▶ Secure messaging with DOR staff
- ▶ Correspondence log and paperless communication options
- ▶ Due date reminders

"The system is creating efficiencies on the back end by giving our employees better tools to do their jobs," said retired Revenue Secretary Dan Hassell. "This project has been a great success on many levels."
